Issue # 2

9th annual Tech Day

Per tradition, ICT held its' annual Technology Day last Wednesday in the first floor of Corbett Center. Similar to previous years, our goal was to motivate NMSU students, faculty, and staff to stop by and get a glimpse of current as well as new emerging technologies that can be utilized throughout campus.

Many organizations took part in the Tech Day fun, and helped educate students, faculty, and staff on some of the services and technology that they provide. Please see side panel for a complete list of tables that were present.

In addition to learning valuable information, students, faculty, and staff had the chance to win a large arrangement of prizes inclusive of gift cards, NMSU apparel, autographed memorabilia, wireless headphones, a mophie pack, and a Beats Pill.

Thank you to those who donated prizes, participated, and helped make this day another success!

Nicole Jeffries
